Dear colleagues,

Welcome to our Summer newsletter!

The most anticipated ESCMID event is about to start. ECCMID 2021 will be exclusively online, and the TAE Day was adapted to this new reality.

In this newsletter, be updated about TAE participation during ECCMID. We have some innovations and this year a very competitive quiz with awesome prizes! Don't forget to watch our video at the virtual networking corner and learn more about the TAE.

We also invite you to participate in the upcoming TAE elections, and we bring you two educational course suggestions to attend this late summer.

Best wishes,
Valentin, Petar, Neja, Sarah, Katharina, Nick, Ivana, and Maria

Dear colleagues,

This September, we bring you important information on the open calls for incredible ESCMID opportunities for trainees. We encourage you to apply to our TAE Outstanding Trainee Award and become a candidate for the upcoming elections for the TAE Steering Committee. Additionally, ESCMID will launch a new call for funded Observerships this October. Also, ECCMID 2022 abstract submission will open next month. Don't wait until the last minute!

We are delighted to have made a virtual TAE DAY possible at ECCMID 2021, keeping the spirit of this event and especially our famous round table session.

Also, we are glad to have restarted the TAE educational project on social media, the TAE Thematic Week. We hope you enjoy and share it!

Finally, we would like to share articles on ID and CM training that may be of your interest and encourage you to apply for the missing vacancies at our TAE network of National Representatives.

Best regards,
Your TAE Steering Committee

If you have an idea about a project we should initiate or if you want to get involved in TAE activities, send us an email at tae@escmid.org.

Dear colleagues,

Once more we bring you the latest updates on TAE and ESCMID. We are pleased to share that the TAE Forum is now open for all ESCMID Young Scientist Members. In the pilot phase, the Forum was restricted to TAE National Representatives.

Despite the challenges of the pandemic over last year we have been able to move on with some TAE projects. For the first time, we have organised an online ESCMID Postgraduate course on COVID-19 in pregnant women and children. The TAE Day was adjusted to the online ECCMID, converting the round tables into chat rooms with ID/CM experts, keeping our famous TAE Quiz interactive and giving the stage to trainees to present their recently published research in the Research Bytes section.

We are glad to have expanded the TAE network with new TAE National Representatives and created the TAE Forum to better connect ID and CM trainees. Additionally, we were the first to be back at on-site events, representing the TAE during the ESCMID Summer School.

We are looking forward to 2022 with new TAE initiatives and expanding collaboration for better medical training in Clinical Microbiology and Infectious Diseases in Europe and beyond.

Best regards,
Your TAE Steering Committee

Dear colleagues,

Welcome to our Spring newsletter!

We are thrilled to bring you all the updates about the 32nd ECCMID! After nearly two years of online interactions, we are looking forward to meeting you all in person.

Whether you participate online or onsite in the congress, we invite you to attend the sessions that the TAE Steering Committee has organised for the TAE community.

We are glad to bring together ESCMID Young Scientist Members from all over the world! Make sure you don't miss opportunities for networking within our community! Join the TAE Day 2022 or the TAE Virtual Round Table Session in May.

We also invite you to read the interviews and know more about the TAE Outstanding Trainee Award Winners 2022.

See you soon in Lisbon or online!

Best regards,
Your TAE Steering Committee
